Mini Ceiling Speaker

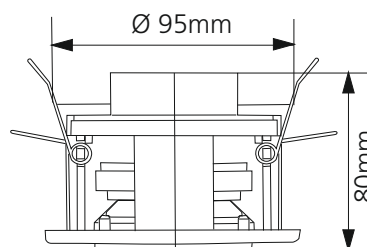

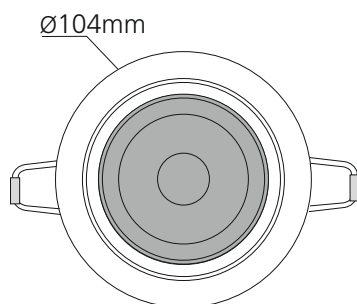

Very small ceiling speaker made from impact resistant ABS. Especially suitable in combination with in-ceiling halogen lamps. Unobtrusive look and excellent acoustical characteristics.

The elegant finish and durable ABS design allows the application in any environment.

The top quality 60mm driver ensures an excellent sound quality and good intelligibility at the same time.

The connection is done via our quick-push-terminal, that does not require any additional tool.

Installation can be done quick and easy by two springclips with high clamping force that ensure firm halt.

Specifications	CSP 60-4
Art.-No.	108228
Power Handling	4-2W
Sensitivity 1 W/1m	84dB
SPL	90dB
Frequency response	130Hz - 20kHz
Impedance	8 Ohms
Directivity	120°
Connection	Quick-Push-Terminal
Aperture	104mm
Installation height	80mm
Installation cut-out	90mm
Installation	2 spring clips
Color	similar to RAL 9016
Weight	0,4Kg
